4.2.4: Percentage per day usage of library by teachers and students (foot falls and login data for online access) (Data for the latest completed academic year)

No. of teachers and students using library per day over last one year=

Response: 40

No. of teachers and students using library per day over last one year=

Response: 1942

Data Requirement

*Number of users using library through e- access = 182

* Number of physical users accessing library per day = 206

* Number of teachers = 65

* Number of students =905

Formula :

Number of teachers and students using library per day

$$\frac{\text{Number of teachers and students using library per day}}{\text{Total Number of teachers and students}} \times 100$$

Number of teachers and students using library per day over last one year

$$\frac{388}{970} \times 100 = 40$$
